

Paper 4: “Audit on Post partum Hemorrhage Management in Al-Makassed hospital”

Dr. Sa’adeh S . Jaber, MBBS, MRCOG,MRCPI, Consultant Gynecology &Obstetric, Makased Islamic Charitable hospital

Abstract

Retrospective analysis of PPH cases managed at al Makassed hospital during the year 2006 and the first 2 months of 2007.

Variables were age, parity, place of residency, mode of delivery, facilities , management & others .

Conclusion: Mortality due to PPH might be considered a preventable condition provided the following are available:

- Expertise
- Efficient blood banking services
- ICU facilities
